

Skills for Care makes sure people have the right skills to work in in the UK.

Make sure people are talking about the right things for the meeting.

Help people know what to do

For each project

You would talk with Skills for Care (SFC) about the projects the group is working on.

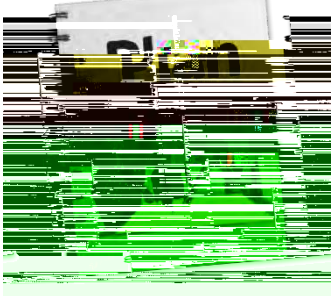

Before each monthly meeting

Before each meeting you would:

- Talk to SFC about what is needed from each meeting.
- Plan activities for the meeting.

Work with SFC to make a plan for the meeting and send it to the group members.

Help _____ know how to explain their project to the group.

Other things you should do

You should:

- Know a lot about issues that affect people with learning difficulties, autistic people and family carers.

Use

Please send everything to:
